

As many of you may know, we recently decided to bring the Venture Logistics and TransCorr identities into alignment under one Venture name. For the past year, we've made this transition thoughtfully, with an end goal of uniting our business units and employees to better serve our customers.

I'm proud to say that we are now simply Venture, and with our three specialized Venture business units in place, we are better than ever.

**Venture Transport:** over-the-road and dedicated transportation services

**Venture Connect:** third-party logistics and freight brokerage

**Venture Solutions:** strategic supply chain guidance, transportation mgmt, materials handling

I believe that this new structure better reflects who we are as a company, and perhaps more importantly, where we are going as a global logistics provider. As always, we remain focused on safety, teamwork, and integrity, values that are key to our success as one Venture.

We look forward to working with each one of you soon, side-by-side, helping you deliver on your promises. We are more committed than ever to delivering outstanding service and a consistent customer experience in the years to come.

Regards,

**Greg Eddy**

President & CEO
